

Research Publications

St. Ann's College for Women encourages faculty members and students to actively engage in research, academic writing, innovation, and scholarly publication activities in alignment with the guidelines of the University Grants Commission, NAAC quality indicators, and NEP-2020.

The institution promotes publication of quality research work in peer-reviewed, UGC CARE-listed, Scopus-indexed, and reputed national and international journals to strengthen academic excellence, research visibility, and knowledge dissemination.

Faculty Publications

Faculty members are encouraged to publish research papers, articles, books, book chapters, and case studies in reputed journals and academic publications.

The institution promotes:

- Publications in Peer-Reviewed and UGC CARE-Listed Journals
- Scopus and Indexed Journal Publications
- Books and Edited Volumes
- Book Chapters and Conference Papers
- Interdisciplinary and Collaborative Research Publications
- Research Articles with Social and Community Relevance
- Publications related to Innovation, Entrepreneurship, and Emerging Areas

The College motivates faculty members to participate in research-oriented academic activities and provides guidance for enhancing research quality and publication ethics.

Student Publications

The institution encourages students to develop research aptitude and academic writing skills through:

- Student Research Projects
- Seminar Papers and Presentations
- Poster Presentations and Project Expos
- Publication of Student Research Articles
- Participation in Conferences and Academic Competitions
- Field Studies, Surveys, and Community-Based Research Activities

Students are guided by faculty mentors to undertake innovative, socially relevant, and interdisciplinary research activities.

Conference Proceedings

Faculty and students actively participate in:

- National Conferences
- International Conferences
- Seminars and Symposiums
- Workshops and FDPs
- Research Paper Presentations

Research papers presented in conferences are published in conference proceedings and academic compilations to enhance research exposure and academic networking.

Citation & Research Impact

The institution encourages faculty members to maintain academic research profiles and improve research visibility through:

- Google Scholar Profiles
- ORCID ID Registration
- VIDWAN Profiles
- Scopus Author Profiles
- ResearchGate Profiles

Research impact is assessed through:

- Citation Index
- h-index and i10-index
- Quality Publications
- Research Collaborations
- Academic Recognition and Awards

The College continuously strives to strengthen research productivity, innovation, and scholarly contribution for academic excellence and societal development.

Institutional Support

The institution provides support for research publications through:

- Research Methodology Workshops
- Publication Guidance and Mentoring
- Awareness Programmes on Publication Ethics and Plagiarism
- Financial Support for Conferences and Publications
- Access to E-Resources, Journals, and Digital Databases
- Encouragement for Collaborative and Interdisciplinary Research

Objective

The institution aims to create a vibrant research ecosystem that nurtures critical thinking, innovation, academic integrity, and lifelong learning among faculty and students while contributing to societal progress and nation-building.
