

Intellectual Property Rights (IPR) Cell

The Intellectual Property Rights (IPR) Cell of St. Ann's College for Women, Gorantla, Guntur, was constituted on 1st September 2022 with the objective of creating awareness about Intellectual Property Rights among faculty and students. The cell promotes innovation, creativity, research ethics, and protection of intellectual and creative work through various academic initiatives and awareness programmes.

The IPR Cell serves as a platform to educate faculty and students on patents, copyrights, trademarks, designs, and related intellectual property practices. The cell also encourages innovative research activities and guides members in understanding the importance of protecting original work and maintaining academic integrity.

Objectives

- Create awareness about Intellectual Property Rights among students and faculty
- Promote understanding of patents, copyrights, trademarks, and innovation ethics
- Encourage innovative research practices and protection of original work
- Guide faculty and students in patent and copyright filing procedures
- Prevent plagiarism and promote academic integrity
- Support documentation and maintenance of IPR-related activities

Major Activities

- IPR awareness workshops and seminars
- Faculty Development Programmes (FDPs) on IPR
- Expert lectures on patents and copyrights
- Innovation and research ethics sessions
- Guidance programmes on patent filing procedures
- Quiz programmes and awareness campaigns on IPR
- Seminars and conferences in collaboration with IQAC

Intellectual Property Policy

The institution recognizes Intellectual Property as an important component of academic growth, innovation, and research development. Intellectual Property includes inventions, creative works, designs, trademarks, research outputs, and other innovative contributions generated by faculty and students.

The IPR Cell aims to:

- Facilitate protection of Intellectual Property generated through academic and research activities
- Encourage staff and students to document and protect their innovative work
- Support the generation, protection, and ethical use of Intellectual Property
- Promote research-oriented and innovation-driven academic practices
- Organize interactions with scientists, academicians, and experts to enhance creativity and research culture
- Ensure confidentiality of Intellectual Property-related information whenever required

The institution encourages faculty and students to undertake innovative and research-based activities while adhering to ethical standards and institutional policies.

Strategies, Mechanisms & Procedures

- Organizing periodic workshops, seminars, and awareness programmes on IPR
- Encouraging collaboration with reputed organizations and industries
- Disseminating knowledge about patent and copyright filing procedures
- Conducting awareness activities for students and faculty
- Promoting innovation and research culture within the institution
- Supporting academic integrity and ethical research practices

Benefits to the Institution

- Encourages innovation and creativity among faculty and students
- Promotes awareness of research ethics and intellectual property protection
- Strengthens research-oriented academic culture
- Enhances institutional academic quality and innovation practices
- Motivates students towards innovative and entrepreneurial thinking
