

Institution Innovation Council (IIC) / Institution–Industry Cell / Incubation Centre

About the Cell

The Institution Innovation Council (IIC) / Institution–Industry Cell of St. Ann’s College for Women, Gorantla, Guntur, has been established to promote innovation, creativity, entrepreneurship, and industry-oriented learning among students and faculty members. The cell functions in alignment with the spirit of innovation and entrepreneurship promoted by AICTE, Ministry of Education Innovation Cell (MIC), and NAAC quality initiatives.

The cell encourages students to develop innovative ideas, projects, prototypes, and entrepreneurial skills through academic, co-curricular, and industry-interaction activities. It also facilitates collaboration between academia and industry to bridge the gap between classroom learning and industry requirements.

The Institution–Industry Cell promotes skill development, research collaborations, consultancy activities, start-up awareness, incubation support, and professional interaction with experts from industries and organizations.

Objectives

- Promote innovation, creativity, and entrepreneurial culture among students
- Encourage critical thinking, problem-solving, and design thinking skills
- Develop innovative ideas, prototypes, and student projects
- Facilitate industry–academia interaction and collaboration
- Promote start-up awareness and entrepreneurship development
- Encourage research, consultancy, and skill development initiatives
- Support incubation and innovation-oriented activities
- Bridge the gap between academic learning and industry expectations
- Organize activities related to innovation, employability, and industry trends

Functions of the IIC / Institution–Industry Cell

The Institution Innovation Council / Institution–Industry Cell shall:

- Organize workshops, seminars, FDPs, and training programmes on innovation and entrepreneurship
- Encourage students to participate in hackathons, innovation contests, and project exhibitions
- Facilitate interaction with entrepreneurs, innovators, scientists, and industry experts

- Promote research, consultancy, and collaborative activities with industries and organizations
- Support start-up awareness, incubation, and entrepreneurial initiatives
- Conduct activities related to skill development and employability enhancement
- Encourage interdisciplinary and industry-oriented projects
- Facilitate MoUs and academic collaborations with industries and institutions
- Maintain records, reports, and documentation of innovation and industry-related activities
- Coordinate innovation and entrepreneurship programmes in collaboration with IQAC and departments

Major Activities

- Innovation challenges and competitions
- Idea presentation and prototype development sessions
- Entrepreneurship awareness programmes
- Start-up and incubation workshops
