

1. Department of Commerce

1.About the Department

The Department of Commerce was established in the academic year 1997–98 in response to the growing demand for commerce education. It initially offered the B.Com (General) programme and later introduced the restructured curriculum in 1999–2000, aligning with evolving academic and industry needs.

The department is committed to delivering quality education with a strong practical orientation, preparing students for careers in business, finance, entrepreneurship, and research.

2.Motto,Vision & Mission

Motto : “Commerce Wonder World – Emphasizing Holistic Student Development”

Vision : o achieve academic excellence with a strong commitment to providing quality education in commerce, management, and related fields, while fostering a holistic approach towards life, environment, and global competitiveness.

Mission

- To empower students with knowledge, skills, and practical training
- To nurture entrepreneurial spirit and enhance employability
- To promote *learning through doing* methodologies
- To develop socially responsible individuals with global outlook
- To prepare students to meet modern challenges with confidence and competence

Best Practices

The Department of Commerce adopts need-based, skill-oriented, and socially relevant practices aligned with **NAAC's outcome-based education framework**. The focus is on experiential learning, employability, and community engagement suited to the regional context of Guntur.

1. GST & Accounting Practical Training (Skill-Oriented Learning Initiative)

Objectives

- To provide hands-on training in GST and accounting practices
- To enhance employability in accounting, taxation, and finance sectors
- To bridge the gap between theoretical knowledge and industry requirements

Context

With increasing demand for skilled accounting professionals, practical exposure to GST filing, Tally, and financial documentation has become essential.

The Practice

- Training in GST concepts, billing, and return filing procedures
- Hands-on sessions using accounting software such as Tally
- Preparation of financial statements and real-time accounting exercises
- Workshops by practicing accountants and tax consultants

Evidence of Success

- Students gaining practical competency in GST and accounting
- Increased placement opportunities in accounting firms
- Positive student feedback on skill-based learning

Problems Encountered & Resources Required

- Need for licensed software and updated tools
- Continuous updates due to changing tax regulations
- Requirement of expert trainers

2. Entrepreneurship & Small Business Development Activities

Objectives

- To develop entrepreneurial mindset among students
- To promote self-employment and local business initiatives
- To build leadership and managerial skills

Context

Guntur region offers scope for small-scale businesses, retail, and agro-based enterprises. Students are encouraged to explore entrepreneurship as a career option.

The Practice

- Business plan competitions and startup idea presentations
- Workshops on small business management and digital marketing
- Interaction with local entrepreneurs and women business owners
- Collaboration with ED Cell for entrepreneurship awareness

Evidence of Success

- Students presenting innovative business ideas
- Participation in entrepreneurship competitions
- Alumni initiating small business ventures

Problems Encountered & Resources Required

- Limited funding support for startups

- Need for incubation and mentorship
- Strengthening industry linkages

3. Financial Literacy & Community Outreach Programme

Objectives

- To promote financial awareness among rural and semi-urban communities
- To educate students on practical financial management
- To encourage social responsibility

Context

Many communities around Gorantla lack awareness of banking, savings, taxation, and digital transactions.

The Practice

- Conducting financial literacy camps in nearby villages
- Awareness programmes on savings, budgeting, and digital payments
- Sessions on banking services, insurance, and taxation basics
- Student participation in outreach and extension activities

Evidence of Success

- Increased awareness among community participants
- Active student involvement in outreach programmes
- Development of communication and leadership skills

Problems Encountered & Resources Required

- Limited outreach resources and logistics
- Need for collaboration with financial institutions
- Language and awareness barriers in rural areas

4. Student-Managed Commerce Activities (Mini Business / Cooperative Model)

Objectives

- To provide real-time business exposure
- To develop managerial and decision-making skills
- To encourage teamwork and leadership

Context

Commerce education requires experiential learning beyond textbooks. Students gain better understanding through real business activities.

The Practice

- Organizing student-led mini business activities (sales stalls, exhibitions)
- Managing procurement, pricing, and sales
- Maintaining accounts and profit analysis
- Faculty supervision for guidance and evaluation

Evidence of Success

- Practical understanding of business operations
- Improved confidence and teamwork among students
- Successful execution of student-led activities

Problems Encountered & Resources Required

- Initial financial support for activities
- Risk management and planning
- Space and infrastructure requirements

5. Career-Oriented Training & Industry Interaction

Objectives

- To enhance employability skills

- To expose students to industry practices
- To prepare students for competitive careers

Context

Students require industry exposure to meet job market expectations in commerce and management sectors.

The Practice

- Guest lectures by Chartered Accountants, bankers, and professionals
- Industrial visits to banks, firms, and business units
- Internship opportunities in local organizations
- Training in soft skills, communication, and interview techniques

Evidence of Success

- Improved placement and internship opportunities
- Better industry awareness among students
- Skill enhancement in communication and professionalism

Problems Encountered & Resources Required

- Limited industry collaborations
- Scheduling constraints for visits and internships
- Need for continuous industry engagement

Overall Impact of Best Practices

- Promotes **experiential and student-centric learning**
- Enhances **employability and entrepreneurial readiness**
- Strengthens **practical knowledge in commerce disciplines**
- Encourages **community engagement and social responsibility**
- Aligns with **NAAC quality indicators and outcome-based education**

Category-wise Activities

The Department of Commerce actively organizes a wide range of academic, skill-oriented, and community-based activities throughout the academic year to ensure holistic development of students. These activities are structured under the following categories:

1. Academic Enrichment Activities

Throughout the year, the department conducts:

- Seminars and workshops on accounting, taxation, and finance
- Guest lectures by industry experts and academicians
- Conferences and student paper presentations

These initiatives strengthen students' conceptual understanding and keep them updated with current trends in commerce.

2. Skill Development Activities

To enhance employability skills, the department regularly organizes:

- Tally and GST training sessions
- Communication and soft skills development programmes
- Resume writing and interview preparation workshops

These activities equip students with practical competencies required for career readiness.

3. Student-Centric Activities

The department encourages active student participation through:

- Business quizzes, debates, and presentations
- Commerce exhibitions and project displays
- Group discussions and case study analysis

Such activities promote analytical thinking, confidence, and teamwork.

4. Extension & Outreach Activities

As part of social responsibility, the department conducts:

- Financial literacy programmes in rural areas
- Consumer awareness campaigns
- Community engagement initiatives

These programmes enable students to apply their knowledge for societal benefit.

5. Industry Interaction Activities

To bridge the gap between academia and industry, the department organizes:

- Industrial visits to business and financial institutions
- Internships and field-based projects
- Interaction sessions with entrepreneurs and professionals

These activities provide real-world exposure and enhance industry readiness.

Overall Approach

Through these year-round activities, the Department of Commerce ensures a balanced focus on academic excellence, skill development, industry exposure, and

community engagement, aligning with NAAC quality benchmarks and outcome-based education.
