B.Sc Honours – Botany

Exploring Plant Sciences for a Sustainable Future

The B.Sc Honours – Botany programme at St. Ann's College for Women provides in-depth knowledge of plant sciences, biodiversity, ecology, plant physiology, genetics, biotechnology, and environmental conservation. The programme develops scientific understanding, analytical skills, and practical laboratory experience essential for careers in research, agriculture, healthcare, and environmental sciences.

The combination of Botany Major with Food Science & Nutrition Minor offers interdisciplinary learning in nutrition, food safety, human health, food processing, medicinal plants, and sustainable food systems, creating wider career opportunities in life sciences and nutrition sectors.

Presently offered as a Three -Year Degree Programme.

Programme Highlights

- Strong foundation in plant sciences and biotechnology
- Practical laboratory training and field-based learning
- Research exposure in biodiversity and environmental studies
- Industry-oriented curriculum with scientific applications
- Skill development in plant analysis and food sciences
- Seminars, workshops, projects, and internships
- Experienced faculty with research-focused teaching

Major Subjects in Botany

- Plant Diversity & Taxonomy
- Plant Physiology
- Cell Biology & Genetics
- Plant Biotechnology
- Ecology & Environmental Science
- Plant Pathology
- Economic & Medicinal Botany

- Molecular Biology
- Biodiversity Conservation

Minor Course – Food Science & Nutrition

The **Food Science & Nutrition Minor** strengthens understanding of:

- Human Nutrition & Health
- Food Chemistry
- Food Safety & Quality Control
- Food Processing & Preservation
- Dietetics & Wellness
- Functional Foods & Nutraceuticals

Career Opportunities

Graduates can pursue careers as:

- Botanist
- Ecologist
- Plant Pathologist
- Biological Technician
- Horticulturist
- Research Assistant
- Food & Nutrition Associate
- Environmental Analyst
- Biotechnology Professional

Employment opportunities are available in:

- Agricultural Research Services
- Botanical Survey Centres
- Biotechnology & Herbal Industries
- Food & Nutrition Industry
- Environmental Management Organizations
- Research & Development Institutions

Students may also pursue higher education such as M.Sc Botany, Food Science & Nutrition, Environmental Science, Biotechnology, Plant Biotechnology, and related life science programmes.

Eligibility Criteria

- Intermediate / Class XII with BiPC / MBiPC or equivalent
- Recognized Board of Education

Why Choose St. Ann's College for Women?

- Well-equipped science laboratories
- Student-centered learning environment
- Research-oriented academic approach
- Practical exposure and industry-focused learning
- Encouragement for innovation and scientific exploration
- Strong support for higher education and career growth
