B.Sc Honours – Chemistry

Exploring Innovation Through Chemical Sciences

The B.Sc Honours – Chemistry programme at St. Ann's College for Women provides strong foundations in organic, inorganic, physical, analytical, and industrial chemistry through practical and research-oriented learning. The programme develops analytical thinking, laboratory skills, scientific knowledge, and problem-solving abilities essential for careers in chemical, pharmaceutical, research, and industrial sectors.

The combination of **Chemistry Major with Botany Minor** offers interdisciplinary learning in plant sciences, medicinal plants, environmental biology, biotechnology, and natural product chemistry, creating wider opportunities in life sciences and research fields.

Presently offered as a Three-Year Degree Programme.

Programme Highlights

- Strong foundation in organic, inorganic & physical chemistry
- Well-equipped laboratories with modern instruments
- Hands-on training and practical laboratory experience
- Industry-oriented curriculum with scientific applications
- Skill development in chemical analysis and research techniques
- Seminars, workshops, projects, and internships
- Experienced faculty with research-focused teaching

Major Subjects in Chemistry

- Organic Chemistry
- Inorganic Chemistry
- Physical Chemistry
- Analytical Chemistry
- Industrial Chemistry
- Biochemistry
- Environmental Chemistry

- Pharmaceutical Chemistry
- Instrumental Methods of Analysis

Minor Course – Botany

The **Botany Minor** strengthens understanding of:

- Plant Diversity & Taxonomy
- Plant Physiology
- Medicinal Plants
- Ecology & Environmental Science
- Plant Biotechnology
- Biodiversity Conservation

Career Opportunities

Graduates can pursue careers as:

- Chemist
- Analytical Chemist
- Lab Technician
- Quality Control Analyst
- Research Associate
- Biomedical Chemist
- Forensic Chemist
- Pharmaceutical Industry Professional
- Research & Development Executive

Employment opportunities are available in:

- Pharmaceutical Industries
- Chemical Industries
- Biotechnology Companies
- Research Laboratories
- Food & Environmental Industries
- Educational & Research Institutions

Students may also pursue higher education such as M.Sc Chemistry, Applied Chemistry, Biochemistry, Analytical Chemistry, Pharmaceutical Chemistry, Biotechnology, and related science programmes.

Eligibility Criteria

- Intermediate / Class XII with MPC / BiPC or equivalent
- Recognized Board of Education

Why Choose St. Ann's College for Women?

- Well-equipped science laboratories
- Research-oriented learning environment
- Practical exposure and industry-focused training
- Student-centered academic approach
- Encouragement for innovation and scientific exploration
- Strong support for higher education and career growth
