B.Com. Honours (Computer Applications)

Empowering Commerce with Digital Technology

The B.Com. Honours (Computer Applications) programme is designed to equip students with a strong foundation in Commerce along with advanced computer application skills. The programme integrates accounting, finance, taxation, management, analytics, database technologies, web applications, and software tools to prepare students for successful careers in the business, finance, and IT sectors.

Students gain practical exposure through computer laboratories, application-oriented learning, and industry-focused training that help them develop professional, analytical, and technical competencies required in today's competitive world.

Note: St. Ann's College for Women presently offers the B.Com. Honours (Computer Applications) programme as a Three-Year Degree Programme in accordance with the guidelines of Acharya Nagarjuna University and the Government.
