B.Sc. Honours – Artificial Intelligence

Empowering Future Innovators in AI & Intelligent Technologies

The B.Sc. Honours – Artificial Intelligence programme at **St. Ann's College for Women ,Gorantla, Guntur** is a four-year undergraduate programme designed to prepare students for the rapidly evolving world of Artificial Intelligence, Machine Learning, Data Science, Robotics, and Intelligent Automation.

The programme provides strong foundations in programming, mathematics, statistics, data analytics, machine learning, deep learning, natural language processing, robotics, cloud computing, and AI-driven applications. Through a blend of theoretical learning, laboratory practice, projects, internships, and industry-oriented training, students gain the skills required for successful careers in emerging technologies and higher education.

Note: St. Ann's College for Women presently offers the B.Sc Honours -Artificial Intelligence programme as a Three-Year Degree Programme in accordance with the Acharya Nagarjuna university and government guidelines

Programme Highlights

- NEP 2020 aligned Four-Year Honours Programme
- Industry-oriented and future-focused curriculum
- Hands-on laboratory training in AI & Data Science technologies
- Training in Python, R Programming, Machine Learning & Deep Learning
- Specialized courses in Robotics, NLP, Conversational AI & MLOps
- Practical exposure through projects, seminars, and research initiatives
- Capstone AI Project and Industry Internship opportunities
- Skill development in Data Analytics, Cloud Computing & Intelligent Systems
- Multiple exit options with appropriate certifications
- Strong foundation for higher studies and research in AI-related fields

Programme Objectives

The programme aims to:

- Develop strong analytical thinking and problem-solving abilities

- Train students to design and develop AI-based applications
- Build competencies in Artificial Intelligence, Machine Learning, and Data Science
- Equip students with practical and industry-relevant technical skills
- Prepare graduates for careers in intelligent systems and emerging technologies
- Encourage innovation, research, and entrepreneurship in AI domains

Core Areas of Study

The curriculum includes:

- Computer Fundamentals & Office Automation
- Python Programming & Data Structures
- Mathematical & Statistical Foundations for AI
- Artificial & Computational Intelligence
- Database Management Systems
- Exploratory Data Analysis & Data Visualization
- Data Science with R
- Machine Learning & Deep Learning
- Robotics & Embedded Systems
- Natural Language Processing
- Big Data Technologies
- Cloud Computing for Data Science
- Conversational AI
- Time Series Analysis & Forecasting
- Data Engineering & MLOps
- Advanced AI Automation & Robotics

Laboratory & Practical Training

The programme emphasizes experiential learning through dedicated laboratories and practical sessions in:

- Python Programming
- Artificial Intelligence

- Machine Learning
- Deep Learning
- Data Visualization
- Robotics & Embedded Systems
- NLP & Conversational AI
- Big Data Technologies
- Cloud Computing
- AI Automation & Robotics

Students gain hands-on experience in developing intelligent applications, predictive models, automation systems, and data-driven solutions.

Pedagogy

The programme adopts an interactive and application-oriented teaching methodology through:

- Classroom teaching
- Laboratory practice
- Assignments & tutorials
- Group discussions & seminars
- Mini projects & capstone projects
- Research initiatives
- Industry internship training
- Skill enhancement workshops

Why Study B.Sc. Honours – Artificial Intelligence?

Artificial Intelligence is transforming industries across the world and has become one of the most promising career domains of the future. This programme helps students build expertise in technologies that power intelligent systems, automation, predictive analytics, and smart decision-making.

Students pursuing this programme will:

- Learn cutting-edge AI technologies and applications
- Develop future-ready technical and analytical skills

- Gain opportunities in rapidly growing technology sectors
- Work with real-world datasets and intelligent systems
- Prepare for careers in AI, Data Science, Robotics, and Automation
- Build strong foundations for higher education and research

Career Opportunities

Graduates can pursue careers as:

- Artificial Intelligence Engineer
- Machine Learning Engineer
- Data Analyst / Data Scientist
- AI Research Assistant
- Robotics Engineer
- NLP Engineer
- Business Intelligence Analyst
- Cloud & AI Solutions Associate
- AI Application Developer
- Automation Engineer

Employment opportunities are available in sectors such as:

- Healthcare
- Financial Services
- Information Technology
- IoT & Smart Systems
- Government & Defense
- Media & Marketing
- Agriculture
- Retail & E-Commerce
- Gaming & Entertainment

Eligibility

Candidates seeking admission into the programme should:

- Have passed Intermediate / 10+2 or equivalent examination
- Study Mathematics as one of the subjects at Intermediate level
- Qualify through the admission process prescribed by the Government of Andhra Pradesh and the institution

Proposed Minor Programme

Students may choose minor specializations such as:

- Mathematics

Programme Outcome

The programme prepares students to become skilled AI professionals capable of developing intelligent systems, analyzing complex data, solving real-world problems, and contributing to technological innovation in diverse industries.

Special Features of St. Ann's

- AI-Focused Modern Curriculum
- Advanced Computer & AI Laboratories
- Hands-on Project-Based Learning
- Training in Python, ML & Data Science
- Industry Internship Opportunities
- Expert Faculty Mentorship
- Workshops, Hackathons & Seminars
- Career & Placement Assistance
- Research & Innovation Support
- Safe and Empowering Campus for Women
- Holistic Development & Skill Training
- Strong Academic Excellence & Values-Based Education

Ready to Build Your Future in Artificial Intelligence?

Join the B.Sc. Honours – Artificial Intelligence programme at **St. Ann's College for Women** and become a part of the next generation of innovators, data scientists, and AI professionals.

Admissions Open

Start your journey towards a successful career in AI,
