B.Sc Honours – Biotechnology

Innovation • Research • Life Sciences

The **B.Sc Honours – Biotechnology** programme is a four-year undergraduate course that integrates biology, chemistry, and technology to study living organisms and develop useful products for human welfare. The programme focuses on the application of biological systems in healthcare, agriculture, pharmaceuticals, environmental management, and industrial biotechnology.

The course provides strong theoretical knowledge along with extensive laboratory training, helping students develop scientific, analytical, and research-oriented skills required for modern biotechnology careers.

Presently offered as a Three -Year Degree Programme.

Why Study B.Sc Honours Biotechnology?

Biotechnology is one of the fastest-growing scientific fields with applications in medicine, agriculture, food technology, pharmaceuticals, and environmental sustainability. The programme offers:

- Strong foundation in Molecular Biology, Genetics, and Microbiology
- Hands-on training in advanced laboratory techniques
- Exposure to modern areas such as Genetic Engineering and Bioinformatics
- Opportunities in research, healthcare, pharmaceuticals, agriculture, and industry
- Skill development in scientific analysis, experimentation, and innovation
- Pathway for higher studies including M.Sc., Ph.D., and professional careers

Core Subjects Covered

The programme combines theoretical learning with practical laboratory experience in areas such as:

- Molecular Biology
- Genetics
- Microbiology
- Biochemistry
- Cell Biology

- Genetic Engineering
- Immunology
- Bioinformatics
- Environmental Biotechnology
- Medical Biotechnology
- Pharmaceutical Biotechnology
- Food & Nutritional Biotechnology
- Marine Biotechnology
- Industrial Biotechnology
- Genomics & Proteomics
- Nano Biotechnology
- Biophysical Techniques
- Plant Biotechnology
- Animal Biotechnology

Practical & Laboratory Training

Students receive extensive practical exposure through:

- PCR Techniques
- Electrophoresis
- Recombinant DNA Technology
- Microbial Culture Techniques
- Cloning Methods
- Immunological Techniques
- Bioinformatics Applications
- Research Projects and Laboratory Internships

Key Features of the Programme

- Modern laboratory-oriented curriculum
- Emphasis on research and innovation
- Practical training in advanced biotechnology techniques

- Industry and research exposure through projects and internships
- Skill-based learning with interdisciplinary approach
- Preparation for higher education and competitive careers

Eligibility Criteria

Students seeking admission into **B.Sc Honours – Biotechnology** should fulfil the following eligibility requirements:

- Must have completed Intermediate / Class XII with **BiPC / MBiPC** or equivalent stream
- Must have passed from a recognized Board of Education

Proposed Minor Course – Botany

Students may choose **Botany** as an interdisciplinary minor course. The proposed subjects include:

Botany Minor Subjects

- Non-Vascular Plants
- Vascular Plants
- Anatomy and Embryology of Angiosperms
- Plant Ecology, Biodiversity and Phytogeography
- Cell Biology and Genetics
- Plant Physiology and Metabolism

Career Opportunities

Graduates of Biotechnology can pursue careers in:

- Biotechnology Industries
- Pharmaceutical Companies
- Research Laboratories
- Healthcare & Diagnostics
- Food Processing Industries
- Agriculture & Environmental Sectors
- Clinical Research Organizations
- Quality Control & Quality Assurance Laboratories
- Bioinformatics and Data Analysis

Higher Education Opportunities

Students can pursue:

- M.Sc Biotechnology
- M.Sc Microbiology
- M.Sc Genetics
- M.Sc Bioinformatics
- MBA in Biotechnology Management
- Research Programmes (Ph.D.)
- Professional and Competitive Examinations

Why Choose St. Ann's College for Women?

- Experienced and dedicated faculty
- Well-equipped science laboratories with modern instruments
- Student-centered teaching and mentoring
- Focus on practical learning, research, and innovation
- Opportunities for seminars, workshops, and internships
- Strong academic environment with value-based education
- Career guidance and higher education support
- Safe and supportive campus environment for women students
