ENTREPRENEURSHIP DEVELOPMENT / INNOVATION & START-UP CENTRE

ANNUAL ACTIVITY REPORT

Academic Year 2025–2026

1. Introduction

The Entrepreneurship Development / Innovation & Start-up Centre of St. Ann's College for Women, Gorantla, Guntur, works towards promoting entrepreneurship, innovation, creativity, self-employment, and start-up culture among students and faculty members.

During the academic year 2025–2026, the Centre undertook various awareness, training, mentoring, and student-oriented activities to develop entrepreneurial thinking and encourage students to transform innovative ideas into feasible products, services, projects, and business opportunities.

The Centre worked in coordination with the IQAC, academic departments, Institution Innovation Council (IIC), Research & Development Cell, Placement Cell, and other institutional committees, wherever applicable.

2. Objectives

The major objectives of the Centre are:

- To develop entrepreneurial awareness and an entrepreneurial mindset among students.
- To encourage creativity, innovation, problem-solving, and independent thinking.
- To motivate students to explore self-employment and start-up opportunities.
- To provide awareness regarding business ideas, business models, and venture creation.
- To develop basic entrepreneurial, managerial, financial, communication, and leadership skills.
- To provide mentoring and guidance for innovative student ideas.
- To create awareness about government schemes, incubation opportunities, funding avenues, and entrepreneurship support systems.

- To encourage women students to explore women entrepreneurship and start-up opportunities.
- To promote collaboration with industry, entrepreneurs, professionals, alumni, and external agencies.
- To strengthen an institutional ecosystem supportive of innovation and entrepreneurship.

3. Major Activities During 2025–2026

3.1 Entrepreneurship Awareness Programmes

The Centre organized and supported awareness activities to familiarize students with the concept of entrepreneurship, different types of entrepreneurs, start-up opportunities, self-employment, and the role of innovation in business development.

Students were encouraged to identify opportunities based on their skills, academic knowledge, local needs, and emerging market requirements.

3.2 Innovation and Idea Generation

Students were encouraged to identify real-life problems and develop innovative solutions through brainstorming, project work, discussions, presentations, and idea-generation activities.

The Centre promoted creative thinking and encouraged students to consider the commercial and social potential of their innovative ideas.

3.3 Start-up Orientation

Awareness was created regarding the basic stages involved in establishing a start-up, including:

- Identification of a business opportunity
- Idea validation
- Market understanding
- Customer identification
- Business model development
- Resource planning
- Financial planning
- Branding and marketing
- Legal and regulatory awareness

- Product/service development
- Scaling and sustainability

3.4 Skill Development and Capacity Building

Students were encouraged to participate in programmes aimed at developing entrepreneurial competencies such as:

- Communication skills
- Leadership
- Team building
- Decision-making
- Problem-solving
- Digital skills
- Financial literacy
- Marketing and presentation skills
- Business planning
- Time management

3.5 Business Idea and Business Plan Development

Students were motivated to prepare business ideas, business models, project proposals, and basic business plans. Guidance was provided on understanding the feasibility, target customers, resources, costs, revenue possibilities, and sustainability of proposed ventures.

3.6 Interaction with Entrepreneurs and Professionals

The Centre encouraged interaction with entrepreneurs, industry professionals, business experts, alumni, and resource persons to provide students with practical exposure to entrepreneurship and the challenges and opportunities associated with starting and managing a venture.

3.7 Women Entrepreneurship Promotion

As a women's institution, special emphasis was placed on encouraging students to explore women entrepreneurship, home-based enterprises, social entrepreneurship, digital entrepreneurship, and self-employment opportunities.

Students were motivated to recognize their skills and explore entrepreneurial opportunities that could contribute to personal development, economic independence, and community development.

3.8 Awareness on Government and Institutional Support

Students were sensitized to the availability of various government initiatives, entrepreneurship development programmes, incubation facilities, mentoring support, competitions, training programmes, and funding opportunities available to aspiring entrepreneurs.

3.9 Innovation, IPR and Entrepreneurship Linkage

The Centre promoted awareness of the relationship between innovation, Intellectual Property Rights, entrepreneurship, and commercialization.

Students were encouraged to understand the importance of protecting original ideas and intellectual creations before commercializing innovative products or services.

3.10 Student Project and Innovation Promotion

The Centre encouraged students to identify innovative components in their academic projects and explore opportunities for developing them into prototypes, products, services, social innovations, or potential start-up ideas, wherever feasible.

4. Major Focus Areas

The activities of the Centre during 2025–2026 focused on:

- Entrepreneurship awareness
- Innovation and creativity
- Start-up ecosystem
- Business idea generation
- Design thinking
- Problem-solving
- Business model development
- Women entrepreneurship
- Financial literacy
- Digital entrepreneurship

- Social entrepreneurship
- Innovation and IPR
- Mentoring and incubation awareness
- Industry and entrepreneur interaction
- Self-employment opportunities

5. Student Engagement

Students from various programmes were encouraged to participate in entrepreneurship awareness programmes, innovation activities, workshops, competitions, project exhibitions, idea-generation sessions, and mentoring initiatives.

The Centre encouraged multidisciplinary participation so that students could combine their academic knowledge with creativity, technology, business understanding, and social problem-solving.

6. Faculty Engagement

Faculty members were encouraged to support and mentor students in developing innovative ideas and entrepreneurial projects. Faculty were also encouraged to participate in entrepreneurship, innovation, incubation, IPR, and capacity-building programmes.

7. Institutional Coordination

The Centre coordinated with relevant institutional bodies, including the IQAC, Institution Innovation Council (IIC), Research & Development Cell, IPR Cell, Placement Cell, academic departments, and other committees, to promote an integrated approach towards innovation, entrepreneurship, employability, research, and skill development.

8. Outcomes

The activities undertaken during 2025–2026 contributed to:

- Creating awareness about entrepreneurship and start-up opportunities.
- Developing an entrepreneurial mindset among students.
- Encouraging creativity, innovation, and problem-solving.
- Increasing awareness of self-employment opportunities.
- Improving students' understanding of business ideas and business models.
- Promoting women entrepreneurship.

- Encouraging students to explore innovative solutions to real-life problems.
- Creating awareness of incubation, mentoring, and entrepreneurship support systems.
- Strengthening the institutional environment for innovation and entrepreneurship.
- Encouraging the linkage of innovation, IPR, research, and entrepreneurship.

9. Best Practices Adopted

The Centre emphasized:

1. **Learn through Innovation** – Encouraging students to learn by developing solutions to real-world problems.
2. **Idea to Opportunity** – Motivating students to examine the practical and commercial potential of innovative ideas.
3. **Women Entrepreneurship** – Promoting entrepreneurship as a pathway towards economic independence and leadership.
4. **Collaborative Learning** – Encouraging students from different disciplines to work together.
5. **Innovation–IPR–Entrepreneurship Linkage** – Creating awareness of the journey from original idea to intellectual property protection and possible commercialization.

10. Future Action Plan

The Centre proposes to further strengthen its activities through:

- Regular entrepreneurship awareness programmes.
- Start-up orientation and business plan workshops.
- Idea-generation and innovation challenges.
- Mentoring support for promising student ideas.
- Interaction with successful entrepreneurs and start-up founders.
- Establishment/strengthening of incubation and pre-incubation support.
- Awareness programmes on funding and government entrepreneurship schemes.
- Promotion of women-led entrepreneurial initiatives.
- Industry and alumni collaboration.

- Promotion of IPR protection for innovative student ideas.
- Participation in innovation and start-up competitions.
- Documentation of student innovations, ventures, and entrepreneurial achievements.

11. Conclusion

The Entrepreneurship Development / Innovation & Start-up Centre of St. Ann's College for Women, Gorantla, Guntur, actively contributed during the academic year 2025–2026 towards developing entrepreneurial awareness, innovation, creativity, and self-employment orientation among students.

The Centre remains committed to building a strong innovation and entrepreneurship ecosystem that enables students to identify opportunities, develop innovative solutions, acquire entrepreneurial skills, and explore the possibility of converting ideas into sustainable ventures.

Through continued mentoring, industry interaction, innovation activities, IPR awareness, and start-up orientation, the Centre aims to empower students to become innovators, entrepreneurs, job creators, and socially responsible contributors to society.
