Institutional Innovation Council (IIC) / Institution–Industry Cell

Guidelines & Procedures

1. Introduction

The Institutional Innovation Council (IIC) / Institution–Industry Cell of St. Ann's College for Women, Gorantla, Guntur is established to promote innovation, entrepreneurship, creativity, research culture, industry interaction, and skill development among students and faculty members.

The cell functions in accordance with the guidelines of AICTE, Ministry of Education Innovation Cell (MIC), UGC, and NAAC to bridge the gap between academic learning and industry requirements. The council encourages students to become innovators, entrepreneurs, researchers, and industry-ready professionals.

2. Objectives

The objectives of the Institutional Innovation Council / Institution–Industry Cell are to:

- Promote innovation, creativity, design thinking, and entrepreneurial culture among students.
- Encourage students and faculty to develop innovative ideas, prototypes, and projects.
- Organize workshops, seminars, FDPs, hackathons, boot camps, and training programs related to innovation and industry trends.
- Facilitate interaction between academia and industry experts.
- Establish linkages with industries, corporate organizations, start-ups, and incubation centers.
- Support research, consultancy, internships, and collaborative projects.
- Encourage start-up initiatives, incubation activities, and self-employment opportunities.
- Create awareness about government schemes, innovation grants, patents, and funding opportunities.
- Enhance employability and industry readiness of students.

- Maintain records, reports, MoUs, and activity documentation for institutional quality assurance.

3. Scope of Activities

The IIC / Institution–Industry Cell shall undertake activities related to:

- Innovation and entrepreneurship development
- Industry interaction programs
- Skill development training
- Research and consultancy collaborations
- Internship and placement support
- Start-up awareness and incubation activities
- Intellectual Property Rights (IPR) awareness
- Prototype development and project exhibitions
- Career guidance and industry exposure visits
- Collaboration with industries and research organizations

4. Constitution of the Committee

The Institutional Innovation Council / Institution–Industry Cell shall consist of:

- Principal – Chairperson
- IIC / Industry Cell Coordinator
- Faculty Innovation Ambassadors
- Entrepreneurship Development Coordinator
- Research Coordinator
- Placement Officer
- IQAC Representative
- Industry Experts / Alumni Representatives
- Student Representatives

The composition may be modified by the Principal based on institutional requirements.

5. Roles and Responsibilities

The committee shall:

- Plan and implement innovation and entrepreneurship activities.
- Organize seminars, workshops, webinars, exhibitions, and competitions.
- Encourage students to participate in hackathons, innovation challenges, and start-up events.
- Facilitate industry interaction and collaborative learning opportunities.
- Identify opportunities for internships, industrial visits, and live projects.
- Promote research culture and consultancy initiatives.
- Guide students in prototype development and business model preparation.
- Encourage filing of patents, copyrights, and IPR-related activities.
- Coordinate MoUs and partnerships with industries and institutions.
- Maintain activity records, reports, attendance, photographs, and documentation.
- Submit annual reports to the institution and relevant authorities.

6. Procedures

Step 1: Planning of Activities

- Prepare annual activity plan aligned with AICTE, UGC, and NAAC objectives.
- Identify innovation, entrepreneurship, and industry-related themes.

Step 2: Collaboration and Networking

- Establish collaborations with industries, start-ups, incubation centers, NGOs, and research organizations.
- Sign MoUs for academic and industry partnerships.

Step 3: Conduct of Programs

- Organize:
 - Workshops
 - Seminars
 - Webinars

- FDPs
- Skill training programs
- Industrial visits
- Innovation contests
- Start-up awareness programs

Step 4: Student Engagement

- Encourage students to:
 - Develop innovative projects
 - Participate in competitions
 - Prepare prototypes and business plans
