Research & Development (R&D) Cell

Guidelines & Procedures

1. Introduction

The Research & Development (R&D) Cell of St. Ann's College for Women, Gorantla, Guntur is established to promote research culture, innovation, consultancy, and scholarly activities among faculty and students.

The R&D Cell functions in alignment with AICTE, UGC, and NAAC quality initiatives to encourage quality research, publications, interdisciplinary studies, project development, and collaboration with industries and research organizations. The cell aims to strengthen academic excellence and create a research-oriented institutional environment.

2. Vision

To develop a vibrant research ecosystem that promotes innovation, knowledge creation, ethical research practices, and academic excellence.

3. Mission

- To encourage faculty and students to undertake quality research and innovation activities.
- To support publication, consultancy, project development, and interdisciplinary research.
- To facilitate collaborations with industries, institutions, and funding agencies.
- To promote ethical research practices and academic integrity.

4. Objectives

The objectives of the Research & Development Cell are to:

- Promote research culture among faculty and students.
- Encourage publication of research papers in reputed journals and conferences.
- Organize workshops, seminars, FDPs, and training programs on research methodology.
- Guide faculty and students in preparing research proposals, projects, and publications.
- Facilitate funding opportunities from government and external agencies.
- Encourage innovation, consultancy, patents, and interdisciplinary research activities.
- Promote collaboration with industries, research institutions, and universities.
- Ensure ethical research practices and prevention of plagiarism.
- Maintain records and documentation of research activities, publications, and projects.

5. Scope of Activities

The R&D Cell shall undertake activities related to:

- Research promotion and development
- Research methodology training
- Faculty and student publications

- Project proposal preparation
- Consultancy and innovation activities
- Patents and intellectual property awareness
- Interdisciplinary research
- Industry-academia collaboration
- Funding and grants support

6. Constitution of the R&D Cell

The Research & Development Cell shall consist of:

- Principal – Chairperson
- R&D Coordinator / Convener
- Research Committee Members
- Senior Faculty Researchers
- IQAC Representative
- Innovation / IPR Coordinator
- Industry / External Research Experts
- Student Research Representatives

The composition may be revised by the Principal based on institutional requirements.

7. Roles and Responsibilities

The R&D Cell shall:

- Promote research culture and scholarly activities in the institution.
- Encourage faculty and students to undertake research projects and publications.
- Organize research methodology workshops, seminars, and FDPs.
- Guide researchers in proposal writing, project preparation, and publication processes.
- Identify funding opportunities from government and external agencies.
- Support innovation, consultancy, and interdisciplinary research initiatives.
- Promote ethical research practices and plagiarism prevention.
- Facilitate collaboration with industries, universities, and research organizations.
- Maintain records and reports of research activities and achievements.

8. Procedures

Step 1: Planning of Research Activities

- Prepare annual research and development activity plan.

Step 2: Awareness and Training

The cell shall organize:

- Research methodology workshops
- FDPs and seminars
- Publication and citation workshops
- Proposal writing sessions
