

Employability Enhancement Activities

St. Ann's College for Women organizes various employability enhancement activities to prepare students for higher education, entrepreneurship, and professional careers. The institution focuses on skill development, career guidance, and industry exposure to improve students' confidence and workplace readiness.

Major Activities

- Career counselling and mentoring
- Placement training programmes
- Competitive examination coaching
- Internship and project guidance
- Entrepreneurship awareness programmes
- Communication and soft skills training
- Industry interaction and networking opportunities

These initiatives help students enhance professional competencies, career awareness, and employability skills required for successful careers and responsible citizenship.
