

Placement Partnerships

St. Ann's College for Women has established placement partnerships with companies, training organizations, educational institutions, and recruitment agencies to enhance students' employability and career opportunities. These collaborations help bridge the gap between academic learning and industry expectations.

Major Areas of Collaboration

- Campus recruitment support
- Skill development and employability training
- Career guidance and counselling programmes
- Resume writing and interview preparation
- Aptitude and soft skills training
- Internship and industry exposure opportunities
- Placement networking and industry interaction

The institution continuously strengthens its industry partnerships through the Training & Placement Cell to support students in achieving career growth, higher education opportunities, and professional development.
