

## Skill-Based Training Programmes

St. Ann's College for Women conducts skill-based training programmes to enhance students' employability, professional competencies, and career readiness. These programmes focus on developing communication skills, leadership qualities, digital literacy, and workplace preparedness.

### Training Areas

- Soft skills and personality development
- Communication and presentation skills
- Aptitude and reasoning training
- Leadership and teamwork
- Digital and computer skills
- Entrepreneurship and innovation
- Interview and group discussion skills

The institution regularly organizes training sessions, workshops, and career-oriented programmes aligned with industry expectations and emerging employment trends to prepare students for professional success.
